### LEARN TO EXPECT SUCCESS!

*"Elkhart Lake-Glenbeulah Middle School ensures success by truly getting to know each student and building a strong bond between the student, the staff, and the parents. Students thrive in a positive environment and are given opportunities to explore, develop skills, and acquire the knowledge needed to become well-rounded young people. A diverse set of academic and co-curricular opportunities maximizes academic achievement while forming connections that last a lifetime. EL-G is a great place to learn and teach!" - Chris Petrie*

EL-G Middle School was recognized by U.S. News as the "10th Best Middle School in Wisconsin" based on our students' performance on state-required tests and how well our school staff prepares their students for high school. At EL-G, we believe the school, along with the home and the community, are the building blocks of a quality education, and ultimately, our students' high level of achievement.

This ad sponsored by EL-G Parents and Graduates—who believe in the well-rounded educational experience and the caring, supportive environment of the EL-G School District. A school district that continues to offer big dividends to all of its students—academically, personally and socially.
